## 🪪 Información

6th-semester student of Computer Technologies Engineering (ITC), with intermediate knowledge of C++, Python, Node.js, AWS EC2, React, databases, HTML, Excel, among others. I am highly motivated to continue learning and gaining experience in a professional environment, applying and expanding my knowledge.

I have strong teamwork, problem-solving, and adaptability skills. I consider myself proactive, open to new ideas, and capable of tackling challenges effectively.

Currently, my goal is to specialize in cybersecurity and complete my degree with this focus, aiming to enter the job market fully prepared and equipped with the necessary skills to excel in the field.

## 🎓 Education

**Monterrey Institute of Technology and Higher Education,**        08/2022 – 06/2026
*Engineer in Computational Technologies*        Edo. Méx, México
Graduation date: june 2026

## 🛠 Experience
